

Protect Hassan Diab from further injustice.
Say NO to any request for his extradition!

Dear Prime Minister Trudeau,

In April 2023, a politicised French court disregarded all evidence of Hassan's innocence and wrongfully convicted him *in absentia* based on flawed intelligence.

In 2018, you stated: "I think, for Hassan Diab, we have to recognise first of all that what happened to him never should have happened... and make sure that it never happens again."

I urge you to honour your words and refuse any request for Hassan's extradition to France!
